

ACA 900, 1000, 1002 2000, 2002 Steam-Electric Iron

Cissell Steam-Electric irons have a cast aluminum alloy sole plate that feature a built-in element and patented internal honeycomb design. Drill patterns allow for maximum steam performance at the touch of the electric thumb switch. The grips are made from molded cork for cool comfort. The irons also features a thermofuse to prevent overheating and include a heat shield hand guard for extra protection. The Steam-Electric Iron comes complete with an electrical cord. All our irons features a standard electric element, 800 watts. Irons are available in 120 or 240 alternating current only and ready for hook-up with the optional Lowboy Assembly. Steam-Electric Irons are available in either "Drycleaners" or "Dressmakers" drill patterns. Unless otherwise specified the "Drycleaners" model will be furnished.

MODEL	VOLTAGE	DRILLING
ACA1000	120V / 60/ 1	DRYCLEANER'S
ACA1002	120V / 60/ 1	DRESSMAKER'S
ACA2000	240V / 60/ 1	DRYCLEANER'S
ACA2002	240V / 60/ 1	DRESSMAKER'S

Solenoid Lowboy Assembly for standard iron w/o water spray-gun (LB-78)

Includes shielded steam chamber, Cissell solenoid valve, pilot light, and five foot steam hose.

Furnished in White only.

ACL110	120V/60/1
ACL111	240V/60/1

ACT850/ ACT851 All-Steam Iron

MODEL
ACT850
ACT851 (with hoses)

The Cissell All-Steam iron features an easy to actuate steam-valve system that increases steam volume and provides excellent steam distribution through its bevelled drilling. It is crafted from AISI 304 stainless steel and features Cissell's popular cork handle designed for added strength and operator comfort.
