- Remove articles being dried immediately after tumbler stops.
- Lint screen must be cleaned in accordance with the manufacturer's recommended frequency guidelines.
- Avoid overdrying items such as silk and wool, as shrinkage or fabric damage may result.

The area surrounding the dryer

- **Do not** store or use flammable liquids near the dryer.
- **Do not** store chemicals, or spray aerosols near this appliance.
- **Do not** store or use aerosols or cleaning solvents in the vicinity of the dryer. Some chemicals used in laundries contain Chlorine (some dry-cleaning fluids, aerosols and bleach) When exposed to a flame, these chemicals may produce toxic fumes that are harmful to humans and highly corrosive.
- **Do not** place articles on or against this appliance
- This dryer is not to be used in the presence of dry cleaning solvents.
- A clothes dryer produces combustible lint and the area around the clothes dryer should be kept free of lint.

WARNING

WARNING: For your safety the information in this manual must be followed to minimize the risk of fire or explosion or to prevent property damage, personal injury or death.

WHAT TO DO IF YOU SMELL GAS:

- Do not try to light any appliance.
- Do not touch any electrical switch; do not use any phone in your building.
- Clear the room, building or area of all occupants.
- Immediately call your gas supplier from a neighbor's phone. Follow the gas supplier's instructions.
- If you cannot reach your gas supplier, call the fire department.
- Installation and service must be performed by a qualified installer, service agency or the gas supplier.

For your safety

Do not store or use gasoline or other flammable vapors and liquids in the vicinity of this or any other appliance.

Textiles as silk and wool must not be overdried to avoid the risk of creasing.

Safety instructions

This machine is only intended for drying water-washed garments.

Clothes that have been cleaned with chemicals/flammable liquids, must NOT be dried in the machine.

Remove clothes from the tumble dryer as soon as they are dry. This prevents them from becoming creased, and reduces the risk of spontaneous ignition.

The machine must not be used for drying foam rubber or foam-like materials.

The machine must not be used for drying floor mops*.

The machine must not be used by minors.

The machine must not be hosed down with water.

Mechanical, electrical and gas installations must only be carried out by authorized personnel.

The key for the operating panel is only to be accessible to authorized personnel.

Report machine malfunctions to qualified service personnel as soon as possible. This is important for your own safety and for the safety of others.

Gas dryers only:

The machine is not to be installed in rooms containing cleaning machines with perchloroethylene, TRICHLOROETHYLENE or CHLOROFLUOROCONTAINING HYDROCARBONS as cleaning agents.

What to do if you smell gas:

Do not try to light any appliance.

Do not touch any electrical switch; do not use any phone in your building.

Evacuate the room, building or area.

Contact appropriate authorities.

**Applies only to floor mops containing polypropylene.*

Error codes

The tumble dryer has automatic error indication.

Error indication is displayed as a flashing code.

Please refer to the manual Selecta Control from ver. 4.xx for an explanation of error codes.

A service technician must be contacted should an error be displayed.

The user can, however, try to correct some error codes himself.

Error code E12

When the error code is displayed this can be due to the user having overfilled the dryer with clothes that are too wet.

Remove some of the clothes, close the door, and press the start button. If this does not help and the error code reappears a service technician must be contacted.

Error code E14

When resetting gas error the dryer must be in operation on a program with heat, and the heat indicator must be on.

The dryer must only be reset three times.

If the dryer, however, has to be reset more than three times it has to be put out of order and a service technician must be called.

Error code E15

When the error code is displayed this can be due to the user having overfilled the dryer.

Remove some of the clothes, close the door, and press the start button. If this does not help and the error code reappears a service technician must be contacted.

Error code E16

The error code is displayed if the user presses the start button while the air pressure switch is already activated.

Resetting by opening / closing the door and pressing start button.

Maintenance

The following should be carried out at regular intervals, depending on machine usage.

Daily

- Check that the drum stops when either the loading door or the lint drawer is opened.

If the dryer operates with the loading door or lint drawer open, the machine must be placed out of order until repairs are made.

NOTE!

Contact a qualified service personnel to disconnect power from the affected dryer.

- Check that the machine does not start until the start button is pressed.
- Check that the loading door, lint drawer and lint drawer gasket are clean, and in good condition. (clean with a damp cloth).
- Keep the dryer area clear and free from combustible materials, gasoline and other flammable vapours and liquids.

Quarterly

Check that the following are not clogged by lint and dust or otherwise blocked:

- Fresh-air intake on the back of the dryer
- The area surrounding the dryer
- Exhaust duct
- Fresh-air intake to the room

Check that the exhaust system connections are tight.

Internal wearing parts

At least once a year, the internal wearing parts of the machine should be checked by a competent, skilled person, cleaned of lint, and repaired or replaced as necessary.
